STOP MOTION MOVIE
"creating movement out of a still image"

        You are going to create a movie that will be made by taking still images (digital photos) and playing them quickly, which will cause it to look like the images are in motion. Your movie can be about anything that you would like, but it must be something that you bring in from home. The subject of the movie must contain photo-shopped images that help to show movement. The movie must also contain sound effects and a sound track for each segment.

WHAT YOU NEED TO KNOW TO BE SUCCESSFUL:
Use the following check list to help you determine what you need to be included in your movie.

Movie -   - At least 4 different segments
                         - 30 seconds to 1 minute in the length
                         - 2 different characters
                         - 2 different settings

Digital Photos -   - At least 200-300 photos
                         - 50 - 70 photos per movie section
                         - With in each section at least 35 photos have been photo-shopped
                         - Multiple colors (4 colors) have been used on the photo-shopped pictures

Movie Story -   - During a segment a new character is introduced
                         - During a segment a change happens to a character that stays in all other segments
                         - Story has a start and a finish
                         - Story contains characters and scenery that move.

Presentation -   - Presentation includes all images
                         - Presentation contains an opening image/cover (including name of movie)
                         - Presentation includes credits (with at least 5 different categories)
                         - Presentation format has no theme and images are inserted as backgrounds only

Remember
Each person needs to **create their own presentation** to get their own score; after the pictures are made the project becomes individual so make sure all pictures are shared with all members.

If you would like to create a movie that incorporates sound then please see Mr. Riordan to work with a different program that allows for sound.

Name: _____

GRADING RUBRIC: Stop Motion Movie

CATEGORY	4	3	2	1
MOVIE: _____/4 (2x) _____/8	Movie contains all of the listed requirements of the stop motion movie: 4 different segments, 30s - 1 minute in length, 2 different characters, 2 different settings	Movie contains **3 of the 4** listed requirements of the stop motion movie: 4 different segments, 30s - 1 minute in length, 2 different characters, 2 different settings	Movie contains **2 of the 4** listed requirements of the stop motion movie: 4 different segments, 30s - 1 minute in length, 2 different characters, 2 different settings	Movie contains **1 of the 4** listed requirements of the stop motion movie: 4 different segments, 30s - 1 minute in length, 2 different characters, 2 different settings
DIGITAL PHOTOS: _____/4 (2x) _____/8	Movie contains all of the listed requirements for digital photos: 200-300 different pictures, 50-70 photos per segment, 35 photo shopped pictures per segment, and multiple colors added to the pictures	Movie contains **3 of the 4** listed requirements for digital photos: 200-300 different pictures, 50-70 photos per segment, 35 photo shopped pictures per segment, and multiple colors added to the pictures	Movie contains **2 of the 4** listed requirements for digital photos: 200-300 different pictures, 50-70 photos per segment, 35 photo shopped pictures per segment, and multiple colors added to the pictures	Movie contains **1 of the 4** listed requirements for digital photos: 200-300 different pictures, 50-70 photos per segment, 35 photo shopped pictures per segment, and multiple colors added to the pictures
MOVIE STORY: _____/4 (2x) _____/8	Movie contains all of the listed requirements for the movie story: new character is introduced,, noticeable character change, contains start and finish, and character and scenery move	Movie contains **3 of the 4** listed requirements for the movie story: new character is introduced,, noticeable character change, contains start and finish, and character and scenery move	Movie contains **2 of the 4** listed requirements for the movie story: new character is introduced,, noticeable character change, contains start and finish, and character and scenery move	Movie contains **1 of the 4** listed requirements for the movie story: new character is introduced,, noticeable character change, contains start and finish, and character and scenery move
PRESENTATION: _____/4	The movie contains all the listed requirements for the completed presentation: contains all images created, contains an introduction, contains credits (including 5 items), and is formatted correctly.	The movie contains **3 of the 4** listed requirements for the completed presentation: contains all images created, contains an introduction, contains credits (including 5 items), and is formatted correctly.	The movie contains **2 of the 4** listed requirements for the completed presentation: contains all images created, contains an introduction, contains credits (including 5 items), and is formatted correctly.	The movie contains **1 of the 4** listed requirements for the completed presentation: contains all images created, contains an introduction, contains credits (including 5 items), and is formatted correctly.
