## WEBSITE DESIGN “creating a web presence that is all you”

You are going to create a website that reflects your personality and interests. The website is going to contain multiple pages that each has a different subject. You will also create a survey and message board that other people can comment on when they view your site. Your site will also contain different types of multi-media that showcase your various projects created in tech arts or your own personalities.

### WHAT YOU NEED TO KNOW TO BE SUCCESSFUL:

Use the following check list to help you determine what you need to be included in your website.

- Website -
  - Contains at least 4 different pages
  - Website contains 4 different types of multimedia
  - Contains both images and clipart
  - Contains 1 online game
  
- Website Pages -
  - Each page has a different design
  - Each page contains clip art (3), digital photos (3), and animated gifs (2)
  - Each contains one different type of multimedia (movie, slideshow, audio, map)
  - Each page has a theme, and that theme is well described (**WITH WORDS**)
  
- Page Theme -
  - Each page fits a certain theme:
    - Home Page
    - Tech Arts Page
    - Favorite
    - Personal Page
    - Years at McHenry Page
  
- Digital Photos -
  - Website and pages contain 20 digital photos
  - Each page has a title picture that fits your page theme
  - 5 images have been photo-shopped
  - Each image is described explaining why it is on the site and why it is important.
  
- Movies -
  - Website contains a 3 movies (1 music video, 1 movie trailer, and 1 random movie)
  - Each movie must have a review by you on why it is on your page
  - Movie lengths must be less than 5 minutes
  - All videos must be school appropriate
  
- Theme Descriptors:
  - **McHenry Middle School Page:** contains information about all three years at McHenry Middle School, contain a list of your favorite moments and worst moments, and a comment section
  - **Tech Page:** must contain each project created in tech arts and links to sites that we have used in class to help create those projects
  - Your website needs to have located somewhere on it examples of the work that you completed on Codecademy:
    - **Bubble Name Example**
    - **Sun, Earth, and Code Example**
    - **About you website Example**
    - **Code Class Free Choice Example**
  
- Codecademy Examples:
  - **Bubble Name Example**
  - **Sun, Earth, and Code Example**
  - **About you website Example**
  - **Code Class Free Choice Example**
